

THE PARABLE OF THE TALENTS

a liberationist approach

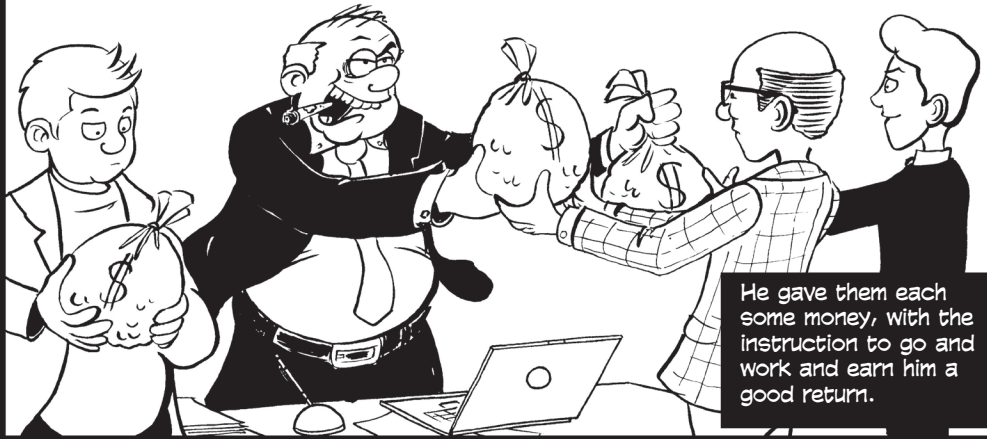

(with thanks to William Herzog for the inspiration!)

BY SIMON CROSS
& STEVE BECKETT

There once was a talented man. *Very talented*, in fact, at getting others to make money for him.

This man had three slaves (ahem) I mean servants.

He gave them each some money, with the instruction to go and work and earn him a good return.

Yeah yeah, listen, I need to earn some serious cash — what do you know about short selling?

STOCK EXCHANGE

Yes but you didn't hear it from me, I don't want to get done for insider trading.

You're sure?

This sucks — I'm not putting up with being part of this system any more.
